## Weekly Picks From the Band

### Book of the Week

*[The Philosopher and the Wolf](#)* charts the relationship between Mark Rowlands, a rootless philosopher, and Brenin, his well-traveled wolf. More than just an exotic pet, Brenin exerted an immense influence on Rowlands as both a person, and, strangely enough, as a philosopher, leading him to re-evaluate his attitude to love, happiness, nature, and death. Funny and poignant, this life-affirming book will make you reappraise what it means to be human.

### Movie of the Week

*[Planet Earth](#)* is a 2006 television series produced by the BBC Natural History Unit. Four years in the making, it was the most expensive nature documentary series ever commissioned by
